The protection of you, your families, our team members and their families is our paramount concern and we have had to balance that with our need to move your treatment along. We will gradually start seeing patients. We will be minimizing the number of people in the office and the type of procedures that we will be rendering. This is necessary to maintain social distancing and a safe environment for all.

We will start with simple procedures that will enable us to continue offering care, and we will pick up the pace as we receive more information from our government and professional organizations.

Our goal is to be able to minimize or eliminate filling out forms in the office by having you complete any paperwork electronically.

For your safety and our team's safety the following protocols will be implemented:

- Team members will wear masks, face shields, hair bonnets, booties, gloves and a disposable gowns.
- All patient chairs will have additional barrier protection and be disinfected thoroughly between each patient.
- We will be working slowly and methodically to be sure that all surfaces and contact points are disinfected and there is no break in our protocols.
- We will limit the amount of staff and patients in the office.
We will be asking ALL patients to:

- Brush thoroughly prior to your departure from home, if not you will be asked to brush and rinse with a hydrogen peroxide for 60 seconds prior to being seated.
- Arrive 15 minutes early for your appointment and check-in at the office front door.
- We will ask few COVID-19 screening questions and take your temperature. Anyone with a fever or unable to successfully answer our screening questions will be asked to reschedule.
- Only the patient will enter the office for treatment. We will have an escort to meet you at the front door and we will escort you back to the door and to your car if necessary after the appointment.
- If you are not already wearing a mask, we will provide you with one when you arrive at the office. You will also be given booties and hand sanitizer. Please keep the mask on until one of our personnel asks you to remove it for your appointment. Please do not stop at the front desk to check out, we will call or text you for your next appointment and any payments if applicable.

Thank you for your cooperation in keeping everyone safe!
